In accordance with the Dracut Water Supply District Rules and Regulations:

Work shall not begin until the Contractor has obtained the necessary permits from all town departments having jurisdiction over street openings and closings; (Police, Fire and Department of Public Works) and has a "Dig Safe" number for the project.

Prior to the commencement of the work, all fees (tie in fees, etc.) assessed by the District must be paid in full and an application to install water mains and/or services must be approved by the Board of Commissioners.

I also agree to use only materials, construction methods, and/or contractors approved by the District

Applicants Signature

I have reviewed the application and _____ Approve _____ Disapprove the water connection.

Michael Sheu, Superintendent
